

Base benches

Take a seat on ROFA's Base Bench and you probably won't want to get up again for a while. They are extremely comfortable and also good for the acoustics.

All sofas are upholstered to a high standard and fitted with high-quality cold foam. The Base Sofas, which are 135 cm and 150 cm high, feature an additional horizontal seam in the backrest to enhance quality and design.

The frame is constructed from sustainably certified wood, plywood and MDF; the seating area features Nosag springs for a longer lifespan and excellent seating comfort.

The benches and footstools are available with an open anthracite-coloured metal base, closed black plinth or 20 cm high bamboo base. Optionally available with a tapered seating edge and closed black plinth 5 cm high.
