M+ TABLE

M+TABLE

Circular design

Product and modular components are designed for change and complete reuse.

Complete design freedom

In terms of dimensions and optional colour of the solid bamboo tabletop.

Sustainable use of materials

Choice of robust, sustainable materials and highly advanced clean processing techniques.

Sustainably produced in the Netherlands

In collaboration with mostly local suppliers and products.

The M+ Table series was designed with one goal in mind: to achieve the perfect synergy between sustainability, functionality and aesthetics.

Our circular design is more than just a table; it is a statement of commitment to the environment. Each element has been carefully crafted using modular components.

Thanks to its interchangeable legs and table tops, the M+ Table can be easily adapted to different needs and styles. Unused components can be reused for other tables, contributing to a more efficient use of materials and a reduction in waste.

The M+ Table is made from bamboo grass. The solid bamboo we use is extremely strong and grows quickly. (up to 1 metre per day) and retains its flexibility. During growth, bamboo purifies so much CO₂ from the air that even after production and transport, more CO₂ has been absorbed than produced. With M+ Table, you not only get a piece of furniture, but also a lifestyle that respects nature.

The M+ Table offers complete freedom in customisation. From the size to the different stain colours, everything can be tailored to your own style and wishes. Both the tabletop and the steel legs are made of sheet material, and the design and production process sought to use these two materials as efficiently as possible. We use 3D tube laser cutters and CNC machines to ensure precision and quality.

We are proud that the M+ Table is manufactured in the Netherlands. In collaboration with local suppliers and manufacturers, we have created a product that is not only high quality, but also contributes to the local economy and community.

And finally, a nod to the heart of our brand: the Moduplus plus sign, which not only stands for added value, but also for connection. The plus sign forms the perfect symbiosis between the tabletop and the leg, making the M+ Table not only sturdy, but also a visual statement.

With the M+ Table, you're not just bringing a table into your home; you're bringing a piece of a sustainable future.
